

I Don't Know How to Love

The Drums

When you're alone

And I'm alone

I could touch your hair three months ago

But now it makes you so upset Why you say I don't know how to love

I simply don't understand my life You can say you don't know

But I remember football in the snow Everybody's gone home

Why don't you love me anymore Why you say I don't know how to love

I simply don't understand my life Why you say I don't know how to love

I simply don't understand my life Why you say I don't know how to love

I simply don't understand my life
