Closer to You

Lime

(Richard Buck)
Baby, come on, let's spend the night together
Touch me with you eyes
Maybe love will make it last forever
Honey, if we do it rightBaby, why don't you get a little closer
Right here by my side
Maybe our love will keep on getting stronger
Darling, if we do it right
Our love is realBaby, the night is young and we're together
Kiss me, kiss me wild
Homey, the circumstances could be better
Gimme, gimme one more nightBaby, I think I like your proposition
Take me anytime
Honey, I wanna feel that sweet sensation
Do it to me one more time
Our love is real(Chorus)
Baby, I wanna hold you in my arms tonight
Honey, I wanna spend the rest of my life with you
Oh, yeah (yeah, yeah)
Baby, I wanna hold you in my arms tonight
Baby, I wanna spend the rest of my life
Closer to you(Keyboard Solo)Yeah, yeah, yeah(Repeat Chorus 2x)Ow!Yeah, yeah, yeahOoh!(Repeat Chorus 2x)
