Forces of Nature

Living Legends

I came from the left kickin' harder than your breath
Force of the wind led from within
The sin subtracts from what I've been through
Balances out, talent no doubt, catch it in the current
No deterrent to what I've sent youSent you, hey it's all monkey see monkey do
What's really inside of you
What's the motives to the things you do
Things you thought you knew
Nobody knows if nobody growsReach to increase intermediate
To the top inner seeds in a medium
Untapped like a natural element
Expelled in the breezeSeize the moment these opponents
They really don't want it
I mean why put it out when your ass don't own itAnd then they write it down and journalize
Speculate and generalize
Mask your lives in all these lies
They need to realizeLook between ya eyes this life ain't free man
Ya got to pay for what you need
Cross the deadly sea to live eternally
Tidal waving saving both coasts like we need
A coastguard, striking hard
Lightening force we the forcePowerful potions spread across
Globes on a map through the windy moss
Oceans holding the answers lost
Deal with the cost find what's lost
Who wants to be found?
So many want to be fly but stand on shaky groundPowerful potions spread across
Globes on a map through the windy moss
Oceans holding the answers lost
Deal with the cost find what's lost
Who wants to be found?
So many want to be fly but stand on shaky groundEarth quaking braking down the walls of society
Lie to me, tell me that it's all right all night
All tight like a twister, mister I'm your master
Faster than a flash flood, taking blood in disastersAnd after they donate the dead hands will prorate
And Fema might come through but they always show late
These fates will force ya have ya racin' like a Porsche
High powered outa control of the talents that you holdMarsupial thoughts ideas tucked down underneath the skull cap

Clung to the main frame with a sharp aim
My life force is a push and a push is like a shove
At times it's disastrous but it's all done for the loveIt's the forces of nature they be pushin' thru the winds
Pushin' thru these lives that were in, this touch of life as it begins
When we be kickin' it with folks and our friends
It's in our nature, it's in our natureIt's the forces of nature they be pushin' thru the winds
Pushin' thru these lives that were in, this touch of life as it begins
When we be kickin' it with folks and our friends
It's in our nature, it's in our natureThe forces of nature they be pushin' thru the winds
Pushin' thru these lives that were in, this touch of life as it begins
When we be kickin' it with folks and our friends
It's in our nature, it's in our natureSince, I feel we really been blessed by the goddess
Man we best to stay modest
Humble like the tumbleweeds that travel cross the brain
Roaming on the plains of your thoughts
Feel the wind gust, feel us when we gotsIt's a gift of speech kids could reach in, pull up their chins
Challenge gravity, opposite of a cavity, build
Ain't no time to yield, feel the thrill
When you're out of forces you're in a standstillYes the fans will follow if your soul's not hollow
Shallow like a wade pool got ya feelin' like a fake fool
Decisions that'll brake you, make you realize the stakes fool
This is what the force will do!Make you see what's real and wipe off the residue
I vow to flow fresh and forever stay new true
Doing what I got to do, doing what I want to do
The opposite of a faker, it's the forces of natureTapping me with taxes isn't natural
My axis is an actual attraction
To the earth that I've been trapped in
In dilapidated fractions of the masses
I'm attractin', ouite magnetic we pullIf you stuck in the rut
We make happen, forces tapping
On your soul, life windows
That's fogged up and clogged up
Brain cells be wake up before else will follow usIt's the forces of nature, they be pushin' thru the winds
Pushin' thru these lives that we're in, this touch of life as it begins
When we be kickin' it with folks and our friends
It's in our nature, it's in our natureIt's the forces of nature, they be pushin' thru the winds
Pushin' thru these lives that we're in, this touch of life as it begins
When we be kickin' it with folks and our friends
It's in our nature, it's in our natureThe forces of nature, they be pushin' thru the winds
Pushin' thru these lives that we're in, this touch of life as it begins
When we be kickin' it with folks and our friends
It's in our nature, it's in our nature
