Might Like You Better

Amanda Blank

Might like you better if we slept together
Might like you better if we slept together
Might like you better if we slept together
Might like you better if we slept together

I might like you better baby
Let's get together baby
Wanna hold you, get to know you
Show you what I got in my sweater baby
Hold it! Red hands up, bitch in charge
And if we settle on it, bet I make you see stars
Get large, get hard, go fuck, go far
When I touch it, watch it, fuck it, see my money and my IIII

I might like you better baby
Let's get together baby
Wanna hold you, get to know you
Show you what I got in my sweater baby
Hold it! Red hands up, bitch in charge
And if we settle on it, bet I make you see stars
Get large, get hard, go fuck, go far
When I touch it, watch it, fuck it, see my money and my IIII

Ride no lie, just get inside me.
Like you better if you just ride me
Grind me, try me, watch me finish.
I like you better if you get up in it.

Might like you better if we slept together
Might like you better if we slept together
Might like you better if we slept together
Might like you better if we slept together

I been waitin' on it don't take too long
Don't waste my time, just take me home
I got something for ya, believe it's sweet

Let's go I moan like a cat in heat

Go, go, go, go
Get low and blow
Let me give you something to grab and hold
Wanna know how you grow
I catch, you through
Cheap, cheap, damn trick, get off real slow

'Cause yeah baby I got whatchya need
Don't fuck with them chicks, just fuck with me
When we're down we can quit it
We don't need to go together just
Let me hit it once and let me hit once and let me hit hit hit

Might like you better if we slept together
Might like you better if we slept together
Might like you better if we slept together
Might like you better if we slept together

Just take me home. (Break down) (x4)

I been waitin' on it don't take too long
Don't waste my time, just take me home
I got something for ya, believe it's sweet
Let's go I moan like a cat in heat

Go, go, go, go
Get low and blow
Let me give you something to grab and hold
Wanna know how you grow
I catch, you through
Cheap, cheap, damn trick, get off real slow

'Cause yeah baby I got whatchya need
Don't fuck with them chicks, just fuck with me
When we're down we can quit it
We don't need to go together just
Let me hit it once and let me hit once and let me hit hit hit

Might like you better if we slept together
Might like you better if we slept together
Might like you better if we slept together

Might like you better if we slept together
