# Smile

## G'Fellas

Girl smile, take a picture if you can
Girl smile, take a picture if you can
Girl smile, take a picture if you can
Girl smile, take a picture if you can
Oh, snap she done posed for me
That flash run off and she did it on the toe for me
Put on a whole show for me
Like boom boom snap, boom boom snap
To my boom boom clap, boom boom, oh
Lable told her to shake that laffy taffy
And she did exactly what they do in Georgia
So I brought her across the border
'Cause she said she never saw that arch before
So I showed her how to pose with that 6.0
Yeah, that?s that new dance that new dance
That?ll make your whole crew dance
Funny thing about it she don?t even have to move
And jump left jump right show that moment
When you boom boom snap in that Kodak moment
Girl smile, take a picture if you can
Girl smile, take a picture if you can
Girl smile, take a picture if you can
Girl smile, take a picture if you can
Girl smile, take a picture if you can
Girl smile, take a picture if you can
Girl smile, take a picture if you can
Girl smile, take a picture if you can
She kinda smile like a bowling ball
Go crazy when she see that flash lights
Camera, action I hear Mystical when she shake it fast
I've seen things I ain't never seen with her
I'm Richy rich professor king bing gave me her
I have violent thoughts in my mind, I'm loosing control
She?s from heaven I'm from bank head, ooh, God?s blessed me
First time I seen her she was dancing off of Nelly song
Smiled at me right then I was in the zone

Go up in my station I?ll show you big dipper
Stop 2 dollar stop Fabo show her bid dipper, oh

Girl smile take a picture if you can
Make tootsie roll, do it with no hands
Girl smile, take a picture if you can
Girl smile, take a picture if you can
Girl smile, take a picture if you can
Girl smile, take a picture if you can
Girl smile, take a picture if you can
Girl smile, take a picture if you can
Girl smile, take a picture if you can
Girl smile, take a picture if you can
Ay yo, I was chillin' with my boy Fabo
When I saw this chick a licka
I told her to come here and get up in this picture
As they snap for me mummy and the flash went flicker
She snapping, 60 with the snapping
She could make it look like the tap dance
A minute do's a na, na, na
Jump to the left, jump to the, jump to
Jump to the, jump to the right, jump to the, jump to
You make the picture turn around
'Cause your shoulders have been round, girl
Get up and understand you could do it with no hands
Pose like a model 'cause you so so cute
And make your body like you in a photo shoot, girl
Girl smile, take a picture if you can
Girl smile, take a picture if you can
Girl smile, take a picture if you can
Girl smile, take a picture if you can
Girl smile, take a picture if you can
Girl smile, take a picture if you can
Girl smile, take a picture if you can
Girl smile, take a picture if you can
