Learn to Love Again

Lawson

There's a place we know
What's cold enough won't grow
We have seen the dark
And the darkness took its tollAnd the journey waits for no one
If no one breaks the mould
And our hearts are stronger
Than we knowThat you and I could learn to love again
After all this time
Maybe that is how I knew you were the one
That you could still believe in me again after all our trials
Maybe that is how I knew you were the oneTo awake and know
We made it through the storm
And someone saves the sweet embrace
For you and you aloneThat you and I could learn to love again
After all this time
Maybe that is how I knew you were the one
That you could still believe in me again after all our trials
Maybe that is how I knew you were the oneSilence says to remember oh oh
We remember
Two lost souls in the shadow oh oh
In the shadowsThat is how I knew you were the one
And that is how I knew you were the one
