Special

Brown Boy

You're so special, (you're so special)
To me
And let me tell you, you're so fine (you're so fine)
I'm gonna make you mine girl.

You're so special and so fine (you're so fine)
You're so special I'm gonna make you mine girl (I gotta make you mine)
You're so special and so fine (you're so fine)
You're so special and so fine I'm gonna make you mine girl (I gotta make you mine girl).

I've been waiting for a girl like you
All my life some one I can share and should make my wife
Girl here's the diamond ring
Please say I do cause you're my every thing
You're my sunshine when I wake up
You're a perfect girl you don't need no make up
Face so flawless body if you're goddess
You got the shape of a now of glass
You even turn me on with your sexy laught
Me plus you do the math
We can chill all night take a bubble bath
Strawberries wet cream if you know what I mean
Rose petals on the ground
Old school oldies bumping on the background
Girl you got me high like I smoked a pound
I gotta thank god for the girl I found
Un chica muy especial.

You're so special and so fine (you're so fine)
You're so special I'm gonna make you mine girl (I gotta make you mine)
You're so special and so fine (you're so fine)
You're so special and so fine I'm gonna make you mine girl (I gotta make you mine girl).

I wanna be your man
Make you understand I would do all I can
To give you the best I must confess
You're the air in my longs you would helps me to breathe
I'm gonna love you baby till god decides
It's time to me to leave and till then I'm gonna be your lover and friend
If you should ever heard

Just call at my name I'll be there in a hurry
To take the way of pain
I will walk a million mies just to see you smile
E-mail you kisses and hughs
Cause girl we got a computer love
Let me hold you tight a li'l bit tight
And now girl you rollin' with a ryder now
You can touch me, tease me tonight we're gonna take it slow and easy
Relax your mind let your body be free
Girl your're so special to me.

You're so special and so fine (you're so fine)
You're so special I'm gonna make you mine girl (I gotta make you mine)
You're so special and so fine (you're so fine)
You're so special and so fine I'm gonna make you mine girl (I gotta make you mine girl).

Girl you're like my natural high
I can call you an angel that fall from the sky
Una muÃ¡eca tan bonita
If I get in my heart would you be my seÃ¡orita?
I know these other guys droppin' its lines
So I heve to figure out the way to make you mine
They say that hook-ups take time so imma take my time
I would wait a million years just to kiss your lips
Tell me when you're ready we can take a tripp
Any place, any where that you wanna go
All you gotta do is let me know
With a snap of the finger and baby we're there
I just wanna show you how much I care
I can show you happyness you nevcer known before
And give you placer that you never found before
Damn baby don't you such a score.

[Repeat x2]
