

# Battle-Axe

## Deftones

I want to sleep if you are awake  
Still makin' believe that you aren't at all crazy  
And if you don't believe I think you should  
You make me so proud Still you love to think you have always been this way  
But you're all wrong And you only sleep when you've lost cause  
Well I still believe that the cause was always me  
And if you don't believe I think you should  
You make me so proud Still you love to think you have always been this way  
Well I'd love to think you will someday feel the same And you love to think it will always, always  
And you love to think it will always, always If you still believe it will always be this way  
Well you're all wrong  
Yes you're
