

# Care For You

## Dokken

As I walked along the beach last night  
Tried to find myself and get it right  
Did you see the changes in my eyes  
Riding on the wind you know it cries  
When you need some one, it's hard to let them go  
When you know that their the one  
When you feel your hope is gone  
Know that I still care for you  
Even though your gone, I taste your tears  
You think it would have passed after all these years  
Though you find away, every night I think of you  
I hope your sleeping well  
When you need some one  
When your heart's alone  
When you feel your hope has gone  
Know that I still care for you  
When I feel you close to me  
Even though it's just a dream  
Please forgive that I still care  
When your loneliness is there  
I still think of you, care for you  
Waiting for  
After all this time has gone  
I still feel you in my arms  
And when you need some one  
Know that I still care for you  
As I walked along the beach last night  
Tried to find my self and get it right  
If you saw the changes in my eyes  
Would you come back
