Save the Last Dance

Union J

I know you catch a lot of hearts, baby
Got them lining up tonight
You got them all revolving right and round
You're like a thousands satellitesNow they're falling hard
Like a house of cards
They blow away like leaves
I know that when the night is over
That you're gonna save the last dance, save the last dance, for me[Instrumental]You're rocking with your girl friends
Take over while you're dancing
You watch me, while I'm watching
But you act like, it ain't nothingThe way that you're moving
I feel right into your grooving
I'm just about to prove it
'Cause all night you've been getting all your drinks for free
And fakin' takin' numbers on your bold bb
But you'll be coming home with meI know you catch a lot of hearts, baby
Got them lining up tonight
You got them all revolving right and round
You're like a thousands satellitesNow they're falling hard
Like a house of cards
They blow away like leaves
I know that when the night is over
That you're gonna save the last dance, save the last dance, for me[Instrumental]When it's rocking, I roll in
Your waist line, I'll be holding
With his bass line, controlling
I'll have the rest of them foldingThe way that you're moving
I fit right into your groove and
I'm just about to prove it
'Cause all night you've been getting all your drinks for free
And fakin' takin' numbers on your bold bb
But you'll be coming home with meI know you catch a lot of hearts, baby
Got them lining up tonight
You got them all revolving right and round
You're like a thousands satellitesNow they're falling hard
Like a house of cards
They blow away like leaves
I know that when the night is over
That you're gonna save the last dance, save the last dance, for me[Instrumental]I know you catch a lot of hearts,

baby
Got them lining up tonight
You got them all revolving right and round
You're like a thousands satellitesNow they're falling hard
Like a house of cards
They blow away like leaves
I know that when the night is over
That you're gonna save the last dance, save the last dance, for me
