

# Rock Number One (Leopold Gregory Mix)

## Cassius

How many risks you're running for  
Life is just like a dream  
You don't have to? no more  
For we could be your team  
If i did hesitate some time  
Now moving?  
But i didn't change my mind  
? on your shoulder Think you on my side  
Be my number one  
Could do everything  
I show you how  
Now you wonder  
Rock'n'roll the dusk  
You could be anyone  
You are another  
Now realise  
Open your eyes  
You keep pushing my love so far  
Oh please come closer  
Pleasant like a shooting star  
Now more than ever  
You make me feel so beautiful  
Stealing my pretender  
Never has to touch my moon  
? on your shoulder Think you on my side  
Be my number one  
Could do everything  
I show you how  
Now you wonder  
Rock'n'roll the dusk  
You could be anyone  
You are another  
Now realise  
Open your eyes  
Think you on my side  
Be my number one  
? fun  
I show you are  
Need forever

Ride'n'roll the dusk  
You won't be anyone  
You are no other  
Now realise  
Open your eyes
