Sweet

Leighton Meester

My heart is bursting
My head is on overload
My lines are twisting
And I want moreYou ask me if I could try to take a bite
I will cause oh I got that appetite
I like that you must be doing something right
I never knewIt could be
Sweet
Over and over again
Over and over againMy mind is acing
I'm going for overdose
My body is shaking
And I want moreYou ask me if I could try to take a bite
I will cause oh I got that appetite
I like that you must be doing something right
I never knewIt could be
Sweet
Over and over again
Over and over againIt could be
Sweet
Over and over again
Over and over again
Sweet
