I Kill Giants

The Naked and Famous

The end of June came
And took you away
We were all crying
Felt like I was dyingBlack dress & black shoes
Tied laces for you
The saddest of days
Why couldn't we save you?Inside my head
At the edge of the bed
Where somberness lay
In your children that dayAs goodbyes are spent
Holding on to what's left
The saddest of days
Why couldn't we save you?Nothing but ashes
In the old fire place
With all of the memories
He has erasedHeavier heels
His mourning concealed
On the saddest of days
Why couldn't we save you?
