It Would Be a Crime

Tina Turner

Baby's got sunshine 'cause she dances through the rain
Momma's got a baby so she smiles through the pain
Daddy's got a job so he's tired but inspired for a changeCome out the window, you can see it from here
It's like a new found restoration
A destination that's clear, they've got each other
And that's a whole lot more than some folks have it would be a crimeA crime if the sun forgot to shine
A crime if the stars forgot to align
It would be a crime if we don't find a way to love somebody
It would be a crimeNow, I've got a dream and it started this way
I get myself early up in the morning and it shines on my face
Anytime you can find a reason and a place it'd be a crimeA crime if the sun forgot to shine
A crime if the stars forgot to align
It would be a crime if we don't find a way to love somebody
It would be a crimeSome days make you want your feet on the ground
Some days make you want to fly
Some people make you want to keep your head down
But you make me wanna tryA crime if the sun forgot to shine
A crime if the stars forgot to align
It would be a crime if we don't find a way
It would be a crimeOh, it would be a crime
Yeah, it'd be a crime, it'd be a crime, be a crime
