Hunt

Goldfrapp

It's your head, it's your heart
Lost somewhere, missing parts
Wedding bells, second time
One more deal, one more crime
Tell us nothing, tell us lies
With elation's, no surprise
Tonight they hunt for you
Tell us nothing, tell us lies
All your passion that you hide
Tonight they hunt for you
Every night, every day
Making plans for your escape
All you love you destroy
Everyone is your toy
Tell us nothing, tell us lies
With elation's, no surprise
Tonight they hunt for you
Tell us nothing, tell us lies
All your passion that you hide
Tonight they hunt for you
Tell us nothing, tell us lies
With elation's, no surprise
Tonight they hunt for you
Tell us nothing, tell us lies
All your passion that you hide
Tonight they hunt for you
You tell me [Incomprehensible] too late
Lies, you tell lies
You tell me [Incomprehensible] too late
Lies, you tell lies
