

Take A Breath

Jonas Brothers

I walked across a crowded street
A sea of eyes cut through me
And I saw you in the middle
Your upset face, you wear it well
You camouflage the way you feel
When everything is the matter We've all been down that road before
Searching for that something more
Worlds are spinning 'round
There's no time for slowing down
So won't you take a breath? Just take a breath People change and promises are broken
Clouds can move and skies will be wide open
Don't forget to take a breath We blink our eyes, life's rearranged
To our surprise, it's still okay
It's the way things happen
Summer comes and then it goes
Hold on tight, and brace for cold
And it's only for a moment We've all been down that road before
Searching for that something more
Worlds are spinning 'round
There's no time for slowing down
So won't you take a breath? Just take a breath People change and promises are broken
Clouds can move and skies will be wide open
Don't forget to take a breath Life isn't suffocating
Air isn't overrated Worlds are spinning 'round
There's no time for slowing down
So won't you take a breath? Just take a breath Worlds are spinning 'round
There's no time for slowing down
So won't you take a breath?
Just take a breath, take a breath People change and promises are broken
Clouds can move and skies will be wide open
Don't forget to take a breath Worlds are spinning 'round
There's no time for slowing down
So won't you take a breath?
Don't forget to take a breath
Don't forget to take a breath
