

Chase A Little Love

Locash Cowboys

Got a Saturday night girl
That I've been seeing
You got that I've been tasting, tasting
And I've tasted it!
Baby, take off your shades
I've never seen them blue eyes
Long time, long time, baby all night!
Oh, I've never seen
Oh, oh, so hop in with me!

Take a ride all night
Do whatever it feels right
I'll and all the stop signs
The radio so slow, we've got tomorrow
Ain't nobody gotta know
Where we are, let's go!
And even turn out the light
Chase a little love tonight!

Hey, baby this old truck ain't always rolling
It's got a cousin that I've
So you could start over, move closer
Take a ride up on my shoulder
Oh, oh, oh, yeah let's roll down
Oh, oh, oh rock the speakers out

The wheels, move that truck
Gonna make you roll
Then you go looking fine, show
Oh, oh, oh, yeah let us roll down
Oh, oh, oh and rocking speakers out!

Take a ride all night
Do whatever it feels right
I'll and all the stop signs
The radio so slow, we've got tomorrow
Ain't nobody gotta know
Where we are, let's go!
And even turn out the light
Chase a little love tonight!
