

Criminals

Chucky Danger Band

You say you want to change the world
You want to be the one that it sees
You say you want to find the girl
Save her from humanity

You say you say things that you can't do things that you want to

We are all criminals in this town
We are all so willing to let another down
Whoa-oh-oh

I say I want to save the world
And keep it all for you and me
I found a meaning in a girl
We're running from humanity

I said one day, see this through, if only you want to

We are all criminals in this town
We are all so willing to let another down
We are all criminals in this town
We are all so willing to let another down
Whoa-oh-oh, yeah
