

Oh, Baby

[Elana James](#)

Oh, baby, you're for me
Mmmmm, you just won't let me be
Mmmmm, honey, take me by the hand
Mmmmm, help me understand Why you'd promise me the world, if you can't seem to give it
Say you want a life with me, but honey, you won't live it
Cause you might be a cipher, and you might be a cad
But you're the closest thing to love this heart has ever had Oh, baby, can't you see
Mmmmm, you're for me
Mmmmm, honey, be my man
Oh, baby, help me understand Why you'd promise me the world if you can't seem to give it
Say you want a life with me but honey, you won't live it
