

# Nothin' to Nobody

**Robben Ford**

I'm a father to my children  
I'm a husband to my wife  
Seems I been something to somebody  
Every day of my life This is part of the master plan  
It don't do much to preserve a man  
And I'd like to see what it feels like to be  
Nothin' to nobody, nothin' to nobody I'm a keeper to my brother  
I'm my mama's fair haired boy  
But you know people, I would rather be  
Nobody's pride and joy No man is an island so they say  
But if I could go there for just one day  
Yeah, I'd like to see what it feels like to be  
Nothin' to nobody, nothin' to nobody I wanna be free as a bird  
Flyin' south for the winter  
And by the time they miss me  
I'll be long gone, yeah, long gone For some people life is just a garden  
You know it seems like they can just  
Pick and choose for themselves  
For me life is just the burdens  
That I have to carry for someone else I'm top dog at my job  
I do more than others can  
The boss likes to tell me  
I'm his right hand man, yeah The preacher on Sunday  
He tells me I'm just another child of God  
Lord, if You're there and if You care  
Hey, can You see fit, yeah, to answer my prayer? 'Cause I wanna see what it feels like to be  
Nothin' to nobody, nothin' to nobody  
Free as a bird, ooh, nothin' to nobody
