Here She Comes

Androids

I can taste you on my tongue
I can still feel what my hands have done
I got you on my mind, more than anything or anyone
And what we have is a connection
We got front row seats to each others affection
You're such a thirsty rose, I can still see you when my eyes are closed
My love glows when I'm with her and she flows like a river
My love's every single song on the radio
My love's every pretty face on video, my love, my love
I'm seein' her in everyone, here she comes
And when I don't know where you are
It's like I see you in every passing car
I can see you in a crowd
Or I can see you when I'm looking at the clouds

My love glows when I'm with her and she flows like a river
My love's every single song on the radio
My love's every pretty face on video, my love, my love
I'm seein' her in everyone, here she comes
And she shines and the stars look up to her
And she shines and she shimmers
My love's every single song on the radio
My love's every pretty face on video
My love is a thousand pages of beauty and here she comes
My love's every single song on the radio
My love's every pretty face on video, my love, my love
I'm seein' her in everyone, here she comes
Here comes my love
