Red Tape

The Whiskeydicks

There's a big big ball of red red tape
Sticky side up and it's rolling your way
Rolling faster everyday, finding your fun and take it away
With tax on fun and drinking tickets paying the cops their greedy wage
Old self righteous politicians telling us to act their age
Safe injections sides for crack heads, drunk tanks for me and you
We got to live before we die so here's what I prepose we do
Let's live like we live in Las Vegas, Halifax through Montreal
Live like we live in a city that will let us live it all
They will try to lock us up cause' living is against the law
They will try to lock us up but they will never catch us all
Let's party (party) x3 party party all night long, let's party (party)x2 party while we sing this song and (hey)x4 party party everyday (hey)x4 party every night away
(Solo)
Because Vancouver's got a big drug problem it's not hard to accept or understand
Cause if you like smoking crack the government will help you buy it
But take your beer out of the bar they'll cut off your fucking hand
So Let's live like we live in Las Vegas, Halifax through Montreal
Live like we live in a city that will let us live it all
They will try to lock us up cause' living is against the law
They will try to lock us up but they will never catch us all
Let's party (party) x3 party party all night long, let's party (party)x2 party while we sing this song and (hey)x4 party party everyday (hey)x4 party every night away Yah
(Solo)
