

You and I

Anarbor

(chorus)

Without you theres no reason for my story
and when im with you I can always act the same
forever yeah if we're together
we can make it better

You and I

We'll never get to sleep
we're up all day
we're overworked and underpaid

You and I

We're always talkin repeat day by day
watchin time drift aways
we burn away

(chorus)

You and I

we've never felt so right
that might just be just I need(to get me through the night)

You and I

We're the perfect fit you've got me hooked
So lit i can never quit
just burn away

(chorus)

(instrumental)
