

So You Want It to Rain

Doyle Bramhall II & Smokestack

So you want it to rain
Just sit here with me
And watch the clouds come in
Wash away our painNeed a place to go
A place to call our own
Just you and me and the rainYour skin is so sweet and warm
And damp as the air and the clouds outside
Everything has a story, a story to tell
Need a place to go
A place to call our own
Just you and me and the rainIt's a beautiful day for the rain
It's a beautiful day that we came
Nowhere to run, everything is plain to see
It's such a beautiful day for the rainGonna leave it all behind
Never look back, throw it all away
On this overcast day, this overcast dayWe got a place to go
A place to call our own
Just you and me and the rainIt's a beautiful day for the rain
It's a beautiful day that we came
Nowhere to run, everything is plain to see
It's such a beautiful day for the rain
It's a beautiful day for the rain
It's a beautiful day that we came
Nowhere to run, everything is plain to see
It's such a beautiful day for the rain
Rain, rain
So you want it to rain
