

Got All This Waiting

Gossip

Got a ways to go, it's a cryin' shame
Got all this waitin' till you're mine, mine, mine, mine
Time is movin' slow, gotta keep it tame
Got all this waitin' till you're mine, mine, mine, mine I see you walkin' around, you got that look on, baby
Who's in your bed now, baby? Don't tell me
Come on home to me, take the fastest train now, baby
Don't make me wait now, baby, baby, baby Saw you in all my dreams but you'd never think
Got all this waitin' till you're mine, mine, mine, mine
Sometimes it seems you'll be the end of me
Got all this waitin' till you're mine, mine, mine, mine I see you walkin' around, you got that look on, baby
Who's in your bed now, baby?
Don't tell me, come on home to me
Take the fastest train now, baby
Don't make me wait now, baby, baby, baby
