Place to Hide

O.A.R.

I thought the rains would never come here
To our valley in the sun
Looking back on days of ease
We would run, so youngAnd I didn't see this coming
'Til it was right around the bend
AgainYou and me could just be crazy
Time ain't on our side
And I need you badly
Of all the others
You had to have me
And now we're running for our lives
And I need you badlyShe don't like this feeling
It never lets her go
She wants to be summer
Too cold under the snow
He's convinced there's no reason
For making her sick, says
Treat me like the devil
Heal that little girl
Treats me like an angel fell upon the world
But she don't like the seasons, they're out of her control
Oh no, where can we goYou and me could just be crazy
Time ain't on our side
And I need you badly
Of all the others
You had to have me
And now we're running for our lives
And I need you badly
Yeah I need you badlyTo hell with tomorrow it's out of my hand
I hold you up now when you're too damn tired to stand
I don't want to be like you, you don't want to be like me
We just want to run together through the darkness we can breatheYou and me could just be crazy
Time ain't on our side
And I need you badly
Of all the others
You had to have me
And now we're running for our lives
And I need youShe said
The rain is picking on me

The thing is, it always seemed to me
Been around the world but it's you I need
Now were running for our lives
And I need you badlyYou and me could just be crazy
Time ain't on our side
And I need you badly
Of all the others
You had to have me
And now we're running for our lives
But I need youShe said
The rain is picking on me
The thing is, it always seemed to me
Been around the world but it's you I need
One by one and this ain't over 'til we're doneWell I got an angel on my shoulder
The devil made me colder
The iron made me bolder
And all I want is life nowAll I felt was pain here
All I got is love now
All you need is me
And all I need is you
