Walls Fall Down

Bedouin Soundclash

When the walls fall down
On your old town
Then you beganSee I had these walls
Built up so strong
Built when I was young
In wars I've wonBut if I'm alone
Stone upon stone
So tall, I could not see
Beyond my wallBut your walls fall down
And your walls fall down
And when walls come down
On your old town you beganA bit unassured
A bit insecure
I climbed up to the top
And saw I lackedAnd my fist stone cracked
Foundation collapsed
Standing on the ground
In stones I foundThat your walls fall down
And your walls fall down
And when walls come down
On your old town, you beganIn other lands
From where you stand
Beneath a shelter
Built by many handsThere is a stone
And you've locked the door
Of people you were swore
You came for warAnd your walls fall down
Walls fall down
Walls fall down
Like a stone falls downI'm no stone
I'm no stone
It's just a stone
Stone falls downSays he's a stone
(Walls fall down, walls fall down)
No man's a stone
