Rock It

Little Red

Alive, a;; of the colour in the night
Laying down beside my side
And the restless in your eyes
to reach before the morning rise

Out on the street corner again
I turn around and see my friend
Some get forward, some get low
But no-one knows which way to go

Rock it to the break of day
Don't stop rocking now, no way
If everybody feels the same
This is why we play these games
Rock it to the early dawn
Soon those good times will be gone
Everything I ever had, if I could have
One night like that

C'mon, DJ play us one more song
We've been waiting all night long
Just about to lose our minds
So play that rrhythm one more time
And now they're clearing out the floor
We never made it there at all
Still not ready to go home
But no-one knows which way to go

Rock it to the break of day
Don't stop rocking now, no way
If everybody feels the same
This is why we play these games
Rock it to the early dawn
Soon those good times will be gone
Everything I ever had, if I could have
One night like that
