

Fire in the Sky (Saxon Over Sweden 2011)

Saxon

There's a fire in the sky
There's a feeling in the air
When the ground starts to tremble
The first attack is here You won't stand a chance
When the missiles start to fly
They never tell the people
Till the holocaust is here When the fire's in the sky
You'll be running for your lives
When the fire's in the sky
Prepare yourselves to die Where, where are the shelters?
They said, they would be there
You'll need, need some protection
From the radiation flare Don't, don't start a panic
It won't do you no good
You'll just have to wait
For the end of all mankind If you're near the point of impact
There's nowhere you can run
If the heatwave don't get you
The shock wave surely will There won't be no more heroes
There's no one left to fight
It's the end of our planet
We've committed genocide When the fire's in the sky
You'll be running for your lives
When the fire's in the sky
Prepare yourselves to die When the fire's in the sky
You'll be running for your lives
When the fire's in the sky
Prepare yourselves to die
To die, to die, to die, to die
