Slip Away

Faktion

I've been inflicted
With this disease
I call you
No surpriseI've been misdirected
Because I sometimes feel you
I used to be much more
I used to know youChorus:
I can't remember what it's like
To be somebody else's reason
I can't put that away
Out of my headI can't stop thinking about what it's like
To be somebody else and see me
And know that they don't need me
And watch me slip awayI seem less connected
With my dreams
I see you
You take control of meKnowing that I've wasted
It all just to feel you
And I will be much more
Because I've known youRepeat ChorusI don't like the way you see me
Manipulate and try to use me
Now you've lost, you can't be near me
You just watch me, just watch me slip awayRepeat Chorus
