# Get Me Up

## Young Love

Woke up this morning, the air was still
Dirty clothes on the floor, last night's thrills
To look at her is like staring at the sun
Here she comes, here she comes, here she comesYou gotta get me up, g-get me up
You gotta get me up, hey, get me up
You gotta get me up, g-get me up
You gotta get me up, hey, get me upGet me up, get me up, get me upStayed up all night and missed my flight
It's not the first time so it's alright, get me up
Won't be the last time 'cause I'm not done
Here I come, here I come, here I comeI already told you
You gotta get me up, g-get me up
You gotta get me up, hey, get me up
You gotta get me up, get me up
You gotta get me up, hey, get me upYou gotta get me up, g-get me up
You gotta get me up, hey, get me up
You gotta get me up, g-get me up
You gotta get me up, hey, get me upIt's what we do and it's all we know
Light the fuse and watch it blow
To look at her is like staring at the sun
She's the one, she's the one, she's the oneYou gotta get me up, g-get me up
You gotta get me up, hey, get me up
You gotta get me up, g-get me up
You gotta get me up, hey, get me upYou gotta get me up, g-get me up
You gotta get me up, hey, get me up
You gotta get me up, g-get me up
You gotta get me up, heyHey, girl in the back, in the back, in the back
Hey, girl in the back, hey, hey
Hey, girl, hey girl in the back, in the back, in the back
Hey, girl in the back, hey, hey, hey girl
