

# A Light

## Friends

Ill take it any time that I can get it  
Your heart can feel like mine  
If you just let it baby  
It will be something soft  
Ill want to pet it  
No matter what the cost  
You wont regret it babyIn morning  
There is a light that shines  
It only happens at the right time  
So you gotta get up, wake up  
Open up your eyesI fake it every time I say forget it  
Our hearts will heal in time  
Dont even sweat it baby baby  
If things get really mixed up  
Ill give you creditWe have that kind of love  
Dont be upset baby  
Dont be upset baby  
Dont be upset with me
