

# What Is This Thing Called Love?

## Delirious?

Looking into yesterday and all the dreams  
That heaven sent  
Maybe love will come our way  
And when I stand upon the land  
I threw the dreams into the sea  
Maybe they will rise againAnd maybe, maybe love will come our way  
And maybe hope will come to us againWhat is this thing called love?  
I know I've found it, it's in your eyes  
What is this thing called love?  
I know I've found it, it's in your eyesLooking to the 'morrows dreams  
And all the secrets that they hold  
Patiently waiting for these days  
And when I look into the sky I see that  
Hope is coming soon  
Praying love will come again
