

Draw Your Brakes

Scotty

Hmm, hmm

All I need from you
Is a good conversation, conversation
'Cause it gives me sweet inspiration
And to tell you
I never felt this way before
I know there is someway today

Love your brothers
Love your sisters

And to tell you
I must admit you've got me thinking
There were times I thought that
I was thinking
But I always want to be in that position
Where I can see more clearly

Now I must admit that
You've got me thinking

Love your brothers
Love your sisters

And to tell you
I must admit you've got me thinking
There were times I thought that
I was thinking
But I always want to be in that position
Where I can see more clearly

Now I must admit that
You've got me thinking

Love your brothers
Love your sisters
