

# Right On for the Darkness

Curtis Mayfield

I am blind and I cannot see  
You are there, your petty evil don't bother me  
Playing all the clothes you wear  
Laugh at me, pressed and clean, and I don't care  
Right on for the darkness  
Right on for the darkness  
You pity fools, you pity fools  
You better have some sympathy, yeah  
'Cause this educated people  
Running the lives of high society  
Making up the blues  
Holding back schools  
Lot of greed, lot of temptation  
Proof of one thing, we're a hell of a nation  
Right on for the darkness  
Right on, right on  
Right on, right on  
Right on, right on for the darkness  
Right on for the darkness  
I am blind and I can't see how to understand  
What do we need for justice  
Is there really enough room to demand?  
Old man you know too well us  
You gain all your children's trust  
Right on for the darkness  
Right on for the darkness  
Right on, right on  
Right on, right on for the darkness  
Right on  
Well the message with the tears  
Through the eyes is everyone will see  
I can hear the people's fears  
[Incomprehensible] everywhere to me  
Right on for the darkness  
Right on, right on  
Right on, right on for the darkness  
I am blind and I cannot see  
You are there, your petty evil don't bother me  
Playing all the clothes you wear  
Laugh at me, pressed and clean, and I don't care  
Right on for the darkness  
Right on for the darkness  
Right on for the darkness
