

Pretty Boys and Pretty Girls

Book Of Love

When I'm alone and you're away
I just close my eyes and I drift away
Your warm body is what I'm without
I just close my eyes and I dream about Pretty boys and pretty girls
Pretty boys and pretty girls
(When I'm without)
Pretty boys
(I dream about)
Pretty girls Strangers in the night exchanging glances
But sex is dangerous I don't take my chances
The boys I meet say that I look lonely
But I just walk on my because they're only Pretty boys and pretty girls
Pretty boys and pretty girls
(When I'm without)
Pretty boys
(I dream about)
Pretty girls In this day and age in a city full of fear
With you by my side together we can show we care Spreading joy to the world
To every boy and every girl Pretty boys and pretty girls
Pretty boys and pretty girls
(What will we show?)
Spreading joy
(Where will it go?)
To the world (What will we show?)
Pretty boys
(Where will it go?)
Pretty girls
