

Don't Forget About Me (Remastered Version)

Dusty Springfield

Baby, I know you've got to go
I have no right
To tell you not to go The road just isn't there for us
There never was a prayer for us
You know (you know) how much I want you now
I don't wanna stay here
Give you fits and haunt your mind
And for now, baby (ooh hoo)
Since you're free to choose again (ooh hoo)
It's your life to win or lose again But, hey, just don't forget about me, now, baby
Baby, please, just don't forget about me, now, baby
Today I cannot borrow
A minute of your tomorrow
Don't let it cause you sorrow
Come on baby, please
Just don't forget about me, now, baby
Just don't forget about me Ah, someday, our paths may cross again
Baby, then we'll find the kind of love
We've lost again
But for now (ooh hoo), I've got to let you go (ooh hoo)
It's ourselves we've got to get to know
