Never Really Tried

Slut

need some time to swerve this melody so trivial underneath the floor + takes a while to interrupt this sequency and sometimes it will take a little more.... (2) a hundred years ago and younger than before: bigger braver twice as high... a second overflow - a longer way to go: this golden boy was lost within his eyes. but i never really tried to keep all of this inside...i thought it was for you, now i know this isn true__i will never understand myself.__ (3) takes some time to follow far enough, i getting closer from today__ takes a while exoverrated stuff, but sometimes something much too far away. (4) much too late and impossible to change, flattered hungry and abused. sometimes angry sometimes bad and sometimes strange, but sometimes i could feel a little bruised. but i never really tried to keep all of this inside
