

# Without You (feat. Da Buzz)

Anton Ishutin

Iâ€™ve been waiting for this time forever  
I listen to the words that comes around  
I tried to understand how love can be  
How love can be

The weight is hard to take, I'm falling  
But I stand up on my feet again a-ha  
It's gotta take a world to break me down

Without you..

Without your love tonight  
Whoâ€™s gonna make my heart feel alright  
Without your love tonight  
Without you

I canâ€™t listen to the words you tell me  
It will never get the love so strong to me  
I have to face reality alone  
Is someone there, Iâ€™m calling  
I wanna show you how I feel, a-ha  
Itâ€™s gotta take a world to bring me up  
Without you

Without your love tonight  
Whoâ€™s gonna make my heart feel alright  
Without your love tonight  
Without you

Without you x3  
Without, Without, Without you

Iâ€™ve been waiting for this time  
I listen to the words  
I tried to understand  
What love can be  
Without you
