How Many Moons

Poco

How Many Moons
How Many Moons
Has it been since I've seen your face
Seems like forever
Seems like I'll never
Ever get back to that place
Where it all began and the time just ran on through
How Many Moons must there be before I see you?How many days
How many ways
Have I imagined I've heard your voice
Seems like a dream
I'm caught in between
And for me there is no other choice
But to get in the wind once more time again
I'm not livin' too well like this
How Many Moons must I be away from your kissShe brings the spirit how I can hear it
The spirit of romance
Something to believe in I want to give in
With every golden chanceHow many times
So fresh in my mind
I see my hands run all over you
Beautiful dream
I'm caught in between
Guess I'll never be through
Wishin' on the moon
I'm wishin' on the moon
