

Commandments

Pestilence

Mutual aversion and disgust, religious facts
Fighting for the land on which they live
Separation of different races, different nations
Disparity, no solidarity Deuce of a mess, impeachment of faith
Preachings, reconciliations insincere
Needless battles, die for the immortal one
Loyalty persuades, you'll persevere Followers of false belief praise idolatry
Worship statues made of stone the adoration
Despiction of the gods in human shapes
Inhuman rituals, biblical transgression
A weapon in your right-hand, in your left a rosary
The polytheistic-monotheistic war
Believers of Almighty prepare to die
Explain to me, what are you fighting for? Shrouds of smoke, moonsoon clouds in the sky
Temples and crucifix' on fire
Malevolent rage in distressed areas
Admission of true faith is their desire Riots and slaughter, mortification of the dead
Victimize the ones you despise
Breathing smother of pyromaniac conflagrations
Obstructed respiration, affected eyes Commandments
Clerical orders
Combative perjurers
Convinced in their right Commandments
Eternal tenacity
Abusing obedience
Unreal motive to kill!
