

See You In Your Dreams

Gene Simmons

The party's over, you're in the corner
You're all alone for the night
And you pick up a phone, you want me to hold
Well dry your eyes, it's alright, it's alright See you, feel you in your dreams tonight
See you, feel you in your dreams tonight, dreams tonight When you're in the room, you're home too soon
You can't get me out of your mind
And you get in bed, you cover your head
My letter to you is signed I love you, you know I do
But take me home tonight
And think of me, I think of you
Baby baby it's alright, it's alright, yeah See you, feel you in your dreams tonight
See you, feel you in your dreams tonight, dreams tonight When you're in the room, you're home too soon
You can't get me out of your mind
When you get in bed, you cover your head
My letter to you is signed and this is what I'm sayin' See you, feel you in your dreams tonight
See you, feel you in your dreams tonight, dreams tonight See you, feel you in your dreams tonight
See you, feel you in your dreams tonight, dreams tonight See you, feel you in your dreams tonight
See you, feel you in your dreams tonight, dreams tonight See you, feel you in your dreams tonight
See you
