

All Nite Madness (Featuring Hanifah Walidah)

Mousse T.

Taste of vengeance on my tongue
Break the silence I've become
Glamorous for everyone
On my scene
Can't deny that I deserve
Praise and glory boys and girls
Immortally I am centre stage
Gracefully Now I can live
Now I can sing
I can give
Everything
I can be free
Tonight I am living for me All night madness
All night madness
People
And the sound
And the faces
All around All night madness
All night madness
Out there on my own
And I am living for the
All night madness Consequently I've become
Legendary like the sun
I have stood the test of time
Shining bright
Unmistakable divine
Paint my picture in your mind
Empress I am here to last
Gracefully Now I can live
Now I can sing
I can give
Everything
I can be free
Tonight I am living for me All night madness
All night madness
People
And the sound
And the faces
All around All night madness

All night madness
Out there on my own
And iam living for the
All night madnessNow I can live
Now I can sing
All night madness
I can give
Everything
I can be free
Tonight Iam living for meAll night madness
All night madness
People
And the sound
And the faces
All aroundAll night madness
All night madness
Out there on my own
And I am living for the
All night madness
