A Message To You

Yolanda Adams

I love you, do you really love me?
I cry for you, have you wept with me?
I've cared for you
How much do you care for me?
So you could have me
I carried a load of shame
So could have my name
Have you done what I've asked of you?
I asked you to come unto me
Give all your cares and burdens to me
For I truly love you
Somehow I can't get through
I have only the best for you
But my voice you ignore
Have you done what I asked of you?
This is my message to you
I'm coming back for you
