

Girl I Love You (She Is Danger Remix)

Massive Attack

Girl I love you but your loving has gone forever
Gonna miss you but my love has gone forever
I say I love you but your loving has gone forever
Gonna miss you but my love has gone forever Girl I'm back in Spanish, ain't no trouble coming around
You promise you will never let me down
If you love me that much you will stick around It's hard to tell that your love exist
But I know this one is for real Girl I love you but your loving has gone forever
Forever
