In the Car...

Paul Weller

In the car
In the car
Have I taken it too farAll shook up
Nowhere to go
Just me and my baby
All aloneI could spend my summer nights
Riding 'round the m25
In the car I live my life
Front or the back seat
I don't mindIn the car
In the car
Many miles, still so farRide the highways
Peace on my mind
'Round the countries
Side by sideI'm self contained
And the music's loud
No one can get in
And I don't wanna get outNow I spend my summer's wise
Riding 'round the M25
In the car I live and die
Front ot the back seat
I don't mindI'm gonna send a pic sometime
Just to show you what it's like
In the car I live my life
Don't wanna talk
Just wanna drive
