serezhadelal

Treated walls care for me
When crossings call out one of three
Treated walls care for me
When crossings call out one of threeOnly child, take good care
I wouldn't like you playing, falling thereTreated walls care for me
When crossings call out one of three
Treated walls care for me
When crossings call out one of threeOnly child, take good care
I wouldn't like you playing, falling there
Only child, take good care
I wouldn't like you playing, falling thereOnly child, take good care
I wouldn't like you playing, falling there
Only child, take good care
I wouldn't like you playing, falling thereOnly child, take good care
I wouldn't like you playing, falling there
Only child, take good care
I wouldn't like you playing, falling thereOnly child, take good care
I wouldn't like you playing, falling there
Only child, take good care
I wouldn't like you playing, falling thereOnly child, take good care
I wouldn't like you playing, falling there
Only child, take good care
I wouldn't like you playing
