

On And On

All Saints

On & on baby I got your back

[1st verse:]I sit here waiting

Just so I can see your face

Full of anticipation

I just wanna call your name

You got me scared to make a move

You got me nervous 'cause it's new

But I'm still waiting

[Chorus]Even though the journey seems so far

No matter where you are

I wanna be close to you

Time with you may seem so far away

But patience has a say

I wanna be close to you

[2nd verse:]Nothing's complicated

I know just how I feel for you

And finally I found a way

To give you all I have

Our love can't be misunderstood, boy 'cause it's too good

I know you read me like a book

That's why we made it

[Chorus (x2)]Even though the journey seems so far...

[Breakdown]On & on baby I got your back

On & on baby I got your back

[Chorus (x2)]Even though the journey seems so far...
