

# It Came Quick (And It Didn't Stay Long)

## Reckless Sleepers

It came quick and it didn't stay long  
That was as much as I could take  
It came quick and it didn't stay long  
Now I'm a ripple in its wake

I don't care if it don't come 'round here  
The next three hours maybe four  
It came quick and it didn't stay long  
I want it back again some more  
Oh yeah

(I don't care)  
What's going on in the world  
(She don't care)  
My my my my my my baby  
(We don't care)  
We speak a language that we never even heard

It came quick and it didn't stay long  
I can't help but waste my time  
It came quick and it didn't stay long  
But first patience is sublime

I don't care if it don't come 'round here  
The next three hours maybe four  
It came quick and it didn't stay long  
I should have locked up all the doors  
All right

(I don't care)  
I don't care that t.v.'s just a distraction  
(She don't care)  
My my my my my my baby  
(We don't care)  
We speak a language that we never even heard

(I don't care)  
For just for a second I'm gone  
(She don't care)  
But I have told her for maybe

(We don't care)  
We speak a language that we never even heard  
Never said a word  
Listen to me

(It came quick and it didn't stay long)  
It came quick and it didn't stay long  
(It came quick and it didn't stay long)  
No-o-o  
(It came quick and it didn't stay long)  
It came quick and it didn't stay long  
(It came quick and it didn't stay long)

My uncle went down to the river  
but his girlfriend fell asleep  
She rolled right into the water  
uncle pulled her from the deep  
Mouth to mouth resuscitation  
turned to passion then to fire  
So my uncle and that river did conspire

(It came quick and it didn't stay long)  
The best things in life all flee  
(It came quick and it didn't stay long)  
Whoa-oh-oh  
(It came quick and it didn't stay long)  
It came quick and it didn't stay long  
(It came quick and it didn't stay long)
