

Only You

Anouk

spot lion theme The songs of the world escape me
The moment you crack
Now you driving
Down the highway of regret Your a victim
Of your rapids eye
Promises broken
Yeah
Your that restless kind Only you, only you can stop this
Stop this from pulling us under
Baby, no one can do this but you Blue dreams about you
My eyes wide open
You think you lost it
My heart for you
The sfeer of you're not being here with me
Were moving slowmotion
I stop and rewind
Back to better times Only you, only you can stop this
Stop this from pulling us under
Baby, no one can do this but you Only you oooh
